Annandale Uniting Church

Conservation Appeal

Can you please make a tax-deductible donation to help repair the heritage façade at Annandale Uniting Church, 81 Johnston St Annandale

Local heritage facts

- the church was built at Annandale in 1891
- the façade originally fronted Bull's Warehouse in Pitt Street, diagonally opposite the GPO
- the sandstone carvings on the façade are noted for their early use of Australian plant and animal motifs
- Bull's Warehouse was built c1871 and designed by leading architect Col Thomas Rowe
- one-third of the Pitt Street city block was burnt out on 1 October 1890 by the famous fire at lithographers Gibbs Shallard & Co. The fire destroyed the warehouse and many other buildings, and made it possible to widen Moore Street into today's Martin Place
- after the fire, the Bull's Warehouse façade was relocated to Annandale. The neighbouring City Bank façade was relocated to Strathfield, where it is now part of Santa Sabina Convent.

Major works to repair the stonework and leadlight windows of the church's Johnston Street façade are to begin in early 2005.

The project is being financed by

- a large grant from the NSW Government Heritage Incentives Program
- voluntary donations and fundraising by the people of Annandale Uniting Church
- local Annandale businesses and community groups who have generously supported our trivia nights & other fundraising events
- community donations, including tax-deductible donations to the National Trust of Australia (NSW) Annandale Uniting Church Conservation Appeal

Key project suppliers

Architects: Clive Lucas Stapleton & Partners Pty. Ltd.

Stonemason: Jasper Swann Stonemasonry Pty. Ltd.

Leadlight Repair: Heritage Decorative Glass Pty. Ltd.
